Solution Focused Practice

Day 1 – introduction to SFP

Day 2 – developing understanding and beginning skills practice

Day 3 – skills workshop

Each day builds upon the previous work

February 2017

Central Liverpool location

Does your job involve helping people?

Would you like to be able to help more quickly & effectively?

Would you like to enjoy your job more?

If you answered yes to these questions, then these one day courses may be for you!

Solution Focused Practice is a simple yet **powerful technique**, suitable for helping any individual or team who may be feeling stuck in any area of their life or work to become unstuck.

It will enable you to **support people quickly and effectively** to achieve **positive outcomes**. The courses are useful for you if in your profession you help others to make changes or achieve goals.

The approach is based on a series of straightforward questions. These focus individuals or teams to find out what they would like to be different and then exactly how they can make that difference happen.

Ideal for people working or interested in **Education, Management Counselling, Coaching, Social Care, Medicine, Mental Health, Substance Misuse, Housing or Youth Work**.
